

Open Source Projects

Introduction

The Distributed Systems Lab at RheinMain University of Applied Sciences offers selected project results for download as open source software. The software packages presented here are research prototypes under ongoing development.

The Projects

- ARM-based Instrumentation Framework for JBoss and Tomcat [[jboss-arm/index.html](#)]
- Eclipse-based Toolkit for Application Instrumentation [[instrumentation-generation/index.html](#)]
- CIM OWL Ontology [[cimowl/index.html](#)]
